Re: WT Docket 11-65

Dear Chairman Genachowski and Commissioners:

Gourley Properties is a family owned and operated commercial and residential real estate company located in Sioux Falls, South Dakota.

Sioux Falls and South Dakota policy makers have done a good job over the years making our community and state a very positive place to do business and create jobs. We see an even better future as Sioux Falls continues to become more "wired" (even if wireless) and we continue to attract new job creators to the area. Technology and broadband plays a big role in that, as our "office" is often a smart-phone as we are on the road bringing potential tenants through our properties.

We'd strongly encourage you to help foster an environment where our offices can continue to become more virtual and mobile by supporting the merger of AT&T and T-Mobile USA that is under consideration. We are excited in any and all investment in technology and connectivity in the region, and we believe this merger will be a win-win for consumers like us and the businesses we seek to place in our properties.

Sioux Falls is thriving. The next step is for the continued deployment of the best and fastest in wireless broadband. The FCC can play a big role in expediting this by approving the merger of AT&T and T-Mobile. We respectfully hope you will do that.

Thank you in advance for helping facilitate this merger.

Paul H Gourley

President

Gourley Properties
